PROFESSIONAL SUMMARY

Front-End Developer with 2+ years of experience building production web applications with React.js, Next.js, and TypeScript. Delivered 10+ client projects in Egypt and the UAE, including a sports analytics platform, admin dashboards, e-commerce stores, and bilingual Arabic/English (RTL) websites.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), HTML5, CSS3
Front-End: React.js, Next.js (App Router, SSR/SSG), Redux Toolkit, Zustand, TanStack Query, React Hook Form, Zod, Recharts
UI & Styling: Tailwind CSS, shadcn/ui, Responsive Design, RTL & i18n (Arabic/English), Figma to Code, SEO
Back-End & Databases: NestJS, Node.js, Express.js, REST APIs, JWT Authentication, NextAuth, Prisma, MongoDB, MySQL
DevOps & Tools: Git, GitHub Actions (CI/CD), Docker, Nginx, Linux VPS, Vercel, Postman

WORK EXPERIENCE

Freelance Front-End Developer **Oct 2024 – Present**
Self-Employed | Menofia, Egypt (Remote)

- Delivered 10+ client web applications, including admin dashboards, e-commerce stores, and company websites, using Next.js, React.js, TypeScript, and Tailwind CSS, typically shipping MVPs within 2–4 weeks
- Built admin dashboards used daily by 10–50 staff, replacing paper and Excel workflows to save time and reduce data-entry errors with validated forms (React Hook Form, Zod) and secure auth (NextAuth, JWT)
- Developed e-commerce storefronts with 100+ products (search, filtering, cart; TanStack Query, Zustand) and SEO-friendly Next.js company websites (SSR/SSG) serving 1K+ monthly visitors with 90+ Lighthouse scores
- Converted Figma designs into responsive, bilingual Arabic/English (RTL) interfaces, integrated NestJS REST APIs, and automated deployments with Docker, Nginx, and GitHub Actions CI/CD

Front-End Intern **Jul 2024 – Sep 2024**
NTG Clarity | Egypt

- Built NTG Care, a hospital appointment and management system, as a front-end developer in a small React.js team
- Developed appointment booking and role-based dashboards for 3 user roles: admins, doctors, and patients
- Implemented auth with role-protected routes and doctor/patient management (profiles, CRUD) via REST APIs

SELECTED PROJECTS

Sports Performance Analytics Platform **Client Project**
Next.js, TypeScript, NestJS, Prisma, MySQL, Recharts, Tailwind CSS, shadcn/ui | UAE-based sports club | Sole Developer

- Built an analytics platform tracking 100+ athletes across multiple sports, turning performance data into KPIs and reports
- Developed athlete profiles and data-entry workflows, interactive Recharts dashboards for performance trends and comparisons, PDF/Excel report export, and role-based access control on a NestJS + Prisma + MySQL REST API

Activity Watcher – Team Activity Tracking Platform **Client Project**
Next.js, TypeScript, TanStack Query, Recharts, shadcn/ui, Node.js, Express.js, MongoDB, Docker

- Built a team activity tracking platform used by 25+ members to log tasks and activities with status tracking, manage teams and members, and monitor progress through Recharts dashboards
- Developed a Next.js + TypeScript front end with TanStack Query and Axios, React Hook Form + Zod forms, and searchable, filterable, paginated data tables using shadcn/ui
- Implemented JWT auth (access/refresh tokens, HTTP-only cookies, bcrypt) and Admin/Member role-based access on an Express.js + MongoDB REST API, deployed with Docker on the client's server

Corporate Website for a Metal Construction Company **Client Project**

- Built a responsive, bilingual Arabic/English (RTL) website with Next.js and Tailwind CSS showcasing the company's services, projects, products, and clients, and handled technical SEO, deployment, and launch

EDUCATION

Bachelor of Commerce | University of Sadat City, Menofia, Egypt **Expected 2027**

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
